Laval's employers committed to educational success

During Hooked on School Days, the RLPRE recognized fifty Laval companies that stand out for their commitment to the educational success of their employees. These employers were nominated by members of RLPRE's *Employeurs engagés* committee, which includes Montmorency College, the Commission scolaire de Laval, the Economic Development of the City of Laval and Laval's Carrefour jeunesse-emploi.

Employers generally concerned by the educational success of their employees

The Réseau Québécois pour la réussite éducative, the Regroupement lavallois pour la réussite éducative's (RLPRE) national network, mandated the Léger marketing firm to find out how employers perceive their role in the educational success of their young employees. The results of the survey demonstrate that employers who hire students show concern for their educational success, but could do more to support them.

Positive graduation trends in Laval

Laval's latest [graduation](#) and [dropout](#) rates are now available on the RLPRE's website. Although the statistical trends are generally encouraging, their progression is neither constant nor linear and disparities persist between different neighborhoods as well as between boys and girls. Concerted and collective action remains essential in order to maintain this positive trend in the region.
